

Innovate faster with Digital Experience Foundation Accelerator from Avanade

Introducing Avanade's accelerator for Adobe Experience Manager

Exhilarating experiences at speed

Adobe Experience Manager is a comprehensive content management solution for building websites, mobile apps, and forms, making it easy to build, manage and deploy commercial websites and digital marketing content and assets. **What if you could do all that – but faster?** With Avanade's Digital Experience Foundation accelerator, you can enhance the speed, performance, and optimization of your connected and cloud-based customer experiences.

A great match with Microsoft

Smooth customer journeys are built on strong digital foundations. Avanade's accelerator provides an integrated and modern digital marketing foundation on top of Microsoft sales and back office technologies to rapidly engage consumers with seamless, personalized and high-quality digital experiences.

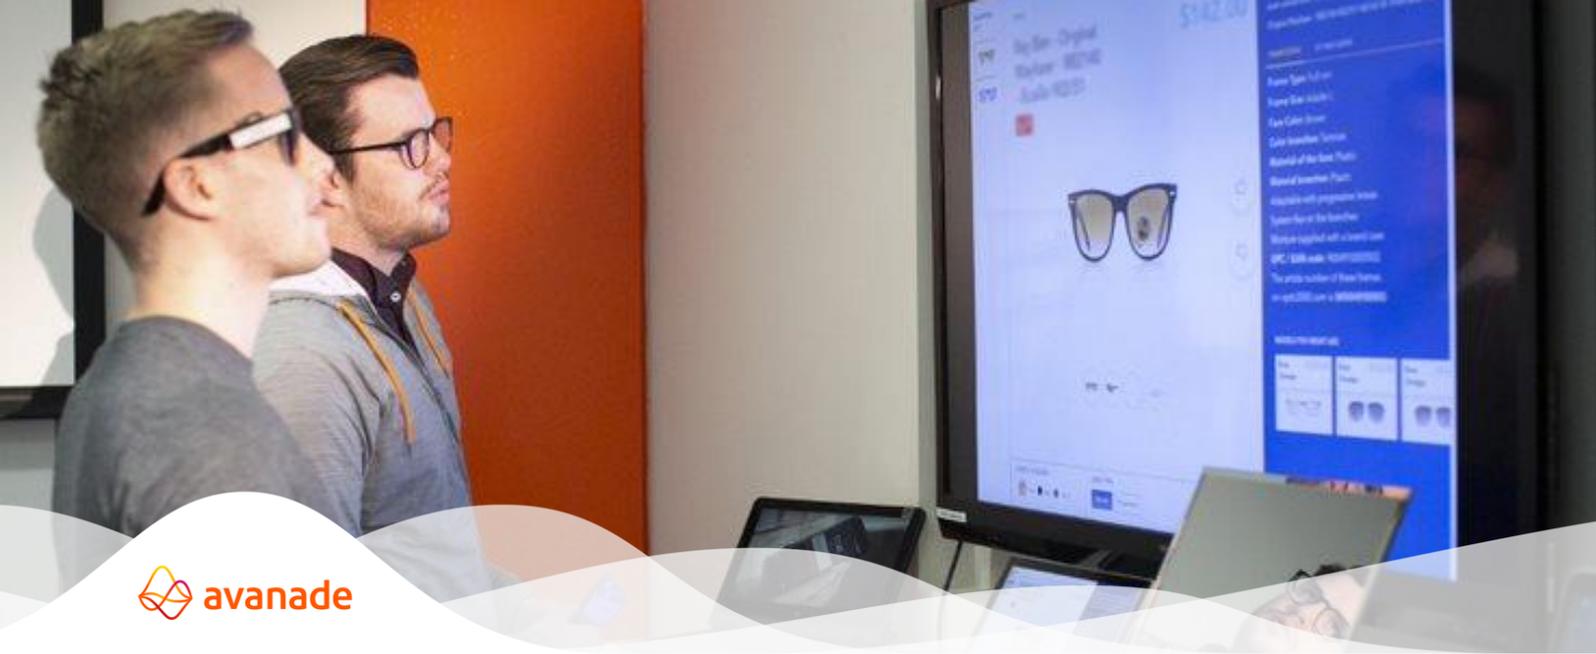

It also prepares organizations for a smoother transition to the cloud.

Get websites up and running with personalization and analytics in 8-12 weeks replacing legacy CMS applications.

Expedite your digital foundation

With the Avanade Digital Experience Foundation for Adobe Experience Manager solution, organizations can create customer-focused digital transformation, by **expediting the digital foundation of content, data, and AI** — to customize customer experiences at scale. It can help you:

- **Rapidly connect content and data** to deliver the experiences customers expect with powerful technology at the core.
- **Accelerate cloud value realization** by transitioning from Adobe Experience Manager on-prem to Adobe Experience Manager as a cloud service.

Avanade Digital Experience Foundation for Adobe Experience Manager

Customized for speed

Every foundation requires a blueprint schematic of integrated components and how they are laid out. A digital foundation is no different. Whether just starting your digital transformation journey or ready to advance to the next level, Avanade's Digital Experience Foundation accelerator can help you progress quickly. Solution blueprints are fully customizable and based on foundations that have worked successfully for other clients.

Toolkit

- Flexible and editable templates
- Over 30 Adobe Experience Manager components, pre-built to the highest standard and industry best practices
- Seamless API integrations
- Pre-configured tag management solution for seamless integration with Analytics and Optimization tools
