

BULLDOG

BORN

BULLDOG is the new Magento 2 accelerator built exclusively by BORN. Launch your B2B or B2C ecommerce shop with rich features, low budget in a short time frame, all without sacrificing quality.

BUSINESS NEEDS

With unparalleled flexibility at a low price-point, Magento 2 is a future-proof solution that businesses of every size around the world rely on. Though it may be tempting to select a lightweight SaaS solution when working with a limited budget or short timeline to launch, that type of solution lacks the scalability needed to grow with your business.

SOLUTION

BULLDOG gives a new look and feel to the standard Magento accelerator with pre-coded extensions, custom UX & UI features, and special enhancements to essential Magento 2 functionalities. BORN actively maintains BULLDOG, and releases frequent updates, fixes and new features to store owners. With BULLDOG your B2B or B2C online store is feature rich, fully scalable to enable business growth, and needs minimal outside maintenance, allowing you to invest in the right platform for your present and future needs.

BENEFITS

Below is a sample of plug and play features, extensions and customizations that are pre-coded into BULLDOG. BORN will identify the perfect combination to elevate your commerce shop and truly maximize online conversions for an incredible ROI.
