

# The Power of Progressive Web Apps at your Fingertips

FWRD IS THE ONLY PWA ACCELERATOR THAT ALLOWS YOU TO IMPLEMENT HYPER FAST EXPERIENCES ON MAGENTO CLOUD.

## Why PWA?

PWAs are websites that act and feel like mobile apps. They are called progressive because they evolve from regular pages to immersive apps by enhancing ordinary HTML and JavaScript. As users engage with them, they become more and more powerful. They load instantly (even when browsing offline), they send push notification, and can be saved on the home screen. Because PWAs will gradually replace traditional sites and mobile apps, Corra has created FWRD: a future-proof solution that accelerates the deployment of PWAs on Magento Cloud.

### KEY FEATURES

-  COMPONENT LIBRARY
-  UI TOOLKIT
-  SEAMLESSLY INTEGRATED WITH MAGENTO CLOUD
-  ADVANCED CHECKOUT FLOW
-  B2B FUNCTIONALITIES
-  PAGE BUILDER INTEGRATION
-  SUPPORTS MULTISITE ARCHITECTURES

AVERAGE MOBILE  
LOAD TIMES:

22 sec

MOBILE LOAD TIMES  
WITH FWRD:

1-3 sec

## Main Benefits

### NEARLY INSTANT LOAD TIMES

With FWRD, after the initial page loads, shoppers experience the site as fast as if they were using a mobile app, even when offline.

### APP-LIKE EXPERIENCES

In addition to offering incredible speed, you can reach your customers through push notifications and deliver advanced capabilities such as camera access and barcode readers.

### FULL ACCESS TO CATALOG OF FEATURES

With FWRD, you can pick pre-built PWA components and make them your own. Push your project to production faster and leave more time to curate your brand experience.

### INTUITIVE UI TOOLKIT

FWRD comes with an intuitive UI toolkit that allows you to quickly modify, drag, and drop PWA components.

### FULL INTEGRATION WITH MAGENTO

FWRD is the only advanced PWA solution built to work seamlessly with Magento. You can fully leverage Magento's headless capabilities, PageBuilder, and Magento cloud hosting.
